# How do I access CivFast?

Simply go to: [www.civfast.com.au](http://www.civfast.com.au) and register to 'Get Quotes' or 'as a Supplier'.

CivFast is;

- A web based online portal, so all you need is an internet connection.
- Hosted on the Cloud, allowing instant 24/7 access – no need to download software from USB or disc.
- Optimised for mobile devices – you can access via tablet, smartphone, etc.
- iOS and Android compatible.
- Not a phone app – so no need to download to your smart phone.

# How does CivFast work?

CivFast has 2 main functions:

## **GET QUOTES (FOR SERVICES/SUPPLIES)**

- CivFast users can register to request and receive quotes from suppliers.
- Quote requests are filtered and matched by item (e.g. forklift hire) and location (e.g. Region of Ballarat) and availability.
- This service is **FREE OF CHARGE** to both CCF Members and non-Members.
- Users can view and manage all of their quote requests easily in the portal.

## **LIST AS A SUPPLIER**

- CivFast users can list their own services and supplies. This requires registering for a paid annual Supplier Plan.
- A range of Supplier Plans are available, suited to different sized companies.
- CCF Members receive discounted rates.
- Can view and manage all submitted quotes through a personal 'Dashboard'.
- Suppliers can also request quotes from other suppliers.

## Registration

Whether you register to get quotes or as a Supplier, registration is quick and simple.

New users are asked to complete a short company profile, which will be viewable by 'quote seekers' and 'suppliers' as they are matched for quote purposes.

Special Note: Each user account is registered under a unique email address/user name. A single email address cannot be used for more than one account.

## REGISTER

If you are not currently registered for CivFast, please register below as either a Supplier or to receive quotes from other CivFast suppliers.

## Advertising as a Supplier

Once a business has registered as a Supplier and has selected a Supplier Plan:

- They will be able to list the services and supplies they have available (by category, type, location, availability, etc).
- The CivFast system will match their listings with incoming 'Quote Requests' from people seeking their types of services/supplies.
- The Supplier will receive a notification (in the portal and via email) of the pending quote request – to which they can send a quote, within the portal.
- The 'Quote Seeker' will receive a notification that they have received a quote. They will also be able to manage all of their quote records in the portal.
- The Company Profiles of the matched Quote Seekers and Suppliers will be viewable by both parties throughout the tender/quoting process.

# Supplier Plans

There are different 6 Supplier Plans available, structured to suit different sized businesses.

The numbers in the table below indicate the total number of types of services and supplies a Supplier can list at any one time.

Note: All Plan prices are per annum and exclude GST.

CCF Members rates are 30% less than Standard rates.

# Supplier Plans

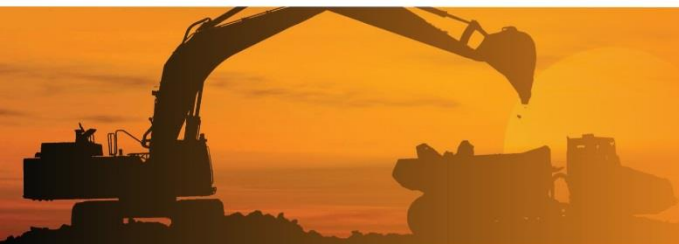

Supplier Plans are cost-effective channels for listing services and supplies.

Example:

CCF Member on the Basic Supplier Plan can list their services for as little as \$4.22 (+GST) a day!

That's basically the cost of a cup of coffee!

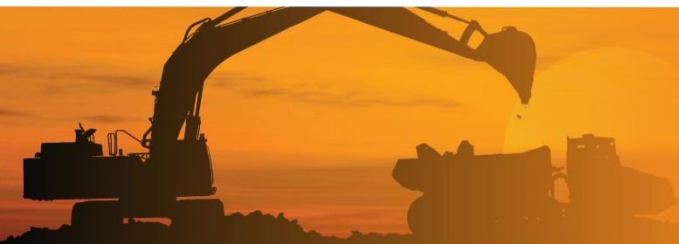

Where else can suppliers connect with their target audience for so little?

# Record Keeping

- Quote Seekers will be able to view and filter all of their Quote Request History, simply and quickly within the portal.
- Suppliers will be able to view and filter all records of open and closed quotes they have provided through their personal Supplier 'Dashboard'. They can also view any Quote Requests they have requested from other suppliers.
- Records of all Quote Requests and corresponding quotes will be kept in the portal, and will be moved to a viewable archived folder after 6 months.

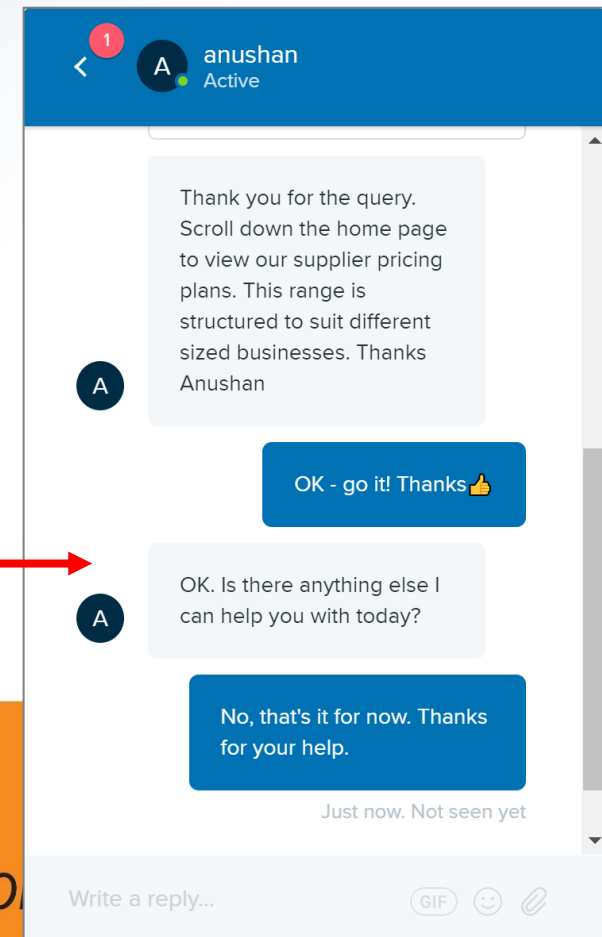

# User Support

Civil Contractors Federation will provide ongoing nationwide support to CivFast users, handling enquiries, providing information and troubleshooting issues via a dedicated Helpdesk.
