

August 2018

EXPRESSION OF INTEREST:

CIVIL CONTRACTORS FEDERATION QLD – ENVIRONMENTAL AND SUSTAINABILITY COMMITTEE

The Civil Contractors Federation is a national body which represents civil engineering contractors through a network of branches and regional offices in every Australian State and Territory. The Civil Contractors Federation is a not-for-profit organisation and is registered as an employer association under the Fair Work Act.

Our aim is to professionally address issues affecting members at a Federal, State and Local level by lobbying governments and government agencies, actively representing members on industry boards, advisory committees and working groups, and liaising with other industry associations.

The Civil Contractors Federation Queensland Branch (CCF QLD) invites you to submit an expression of interest in joining the CCF QLD Environmental and Sustainability Committee. As a member of the Committee, you will play a crucial role in representing the interests of the civil construction industry in Queensland.

The mission of the CCF QLD Environmental and Sustainability Committee is to foster a collaborative setting where information relating to environmental and sustainability best practices in the civil construction industry can be collaborated and shared to develop and educate CCF QLD Members.

In preparing your submissions please ensure you take into account the following when sending a completed application:

- CCF QLD Environmental and Sustainability Committee Charter
- Committee member responsibilities
- Availability to attend Committee meetings
- Expertise and experience in the environmental and sustainability sector within the civil construction industry

Expression of Interests close: Monday 27th of August 2018

Yours Sincerely,

Damian Long
Chief Executive Officer
Civil Contractors Federation Qld
